MaternaLink pricing (8 September 2026): per-product and annual-service price books, cost-to-serve and worked examples are in `/docs/21_MATERNALINK_PRICING.md` ; the public summary is on `/maternalink-site/pricing.html` . Those supersede any MaternaLink figures below.

Version: 1.0 · 8 September 2026 · Status: PROPOSED · Owner: Founder (acting CMO/BD)

Governed by `/FACTS_BASE.md` . All figures are ESTIMATE, in GBP, exclusive of VAT (VAT status TO VALIDATE), and consistent with `/docs/01_BUSINESS_MODEL.md` §2–§7 and `/docs/04_MATERNALINK_PRODUCT_STRATEGY.md` §9. Nothing here is a price we have ever charged; every price is a starting point to be tested in the first six proposals (`/docs/01_BUSINESS_MODEL.md` §8, item 2).

Executive view

- 1. Services pricing is anchored on a founder day rate of £1,200–£1,800 (model £1,500) and an associate day rate of £700–£1,000; packages are priced as fixed fees derived from those days, never below the days they consume.
- 2. Retainers (£2,500–£6,000/month; standard £4,000 for two days) and the fractional officer role (£5,500–£8,000/month) are the recurring layer; they are capped at ~5 concurrent to protect delivery.
- 3. E-Learning pricing (£49–£299 per course UK; £10–£40 regional; £19/month subscription; corporate £2,500–£25,000) is set for month 9 launch and carries no accreditation claim.
- 4. MaternaLink (in development) is not for sale; the ranges here — UK pilot £20k–£60k, first paid pilot £10k–£40k, UK site licence £40k–£120k/yr, Africa platform £6–£40 per woman per year, NGO programme £8k–£60k/yr — exist to answer "roughly what would it cost?" honestly and to retire the unvalidated £300/woman/year figure.
- 5. Discount guardrails and payment terms are rules, not guidance: maximum 10% founder discretion, 15% for multi-package bundles, nothing below the day-rate floor, 50% on signing under £20k, 14-day terms.

1. Pricing principles

Principle	Rule
Cost-to-serve first	Every price starts from founder/associate days at internal cost (founder opportunity cost £600/day, ASSUMPTION) plus direct costs, then a margin target of ≥55% on consulting and ≥70% on advisory
Fixed fee by default	Packages are fixed-fee, fixed-scope with written change control; time-and-materials is the fallback for undefined work
Value shown, not asserted	Proposals state the outcome the client can act on; no ROI guarantees
Three options	Good / Better / Best in every proposal; one recommended
Public "from" prices	The website shows "from" prices per package to qualify leads and shorten cycles
Test and record	Three price points tested in the first six proposals; objections coded in the CRM
Labelled	Every price is ESTIMATE and ex-VAT until the first invoice establishes an actual

2. Day rates

Role	Day rate (ESTIMATE)	Half day	Notes
Founder — advisory day (A1)	£1,200–£1,800 (list £1,500)	£900	Sub-contract to a larger consultancy: £1,200 floor
Founder — delivery within a package	£1,500 (internal pricing basis)	—	Not sold separately below the package price
Associate consultant (NHS-experienced, in-country, evaluation)	£700–£1,000 (list £900)	£550	Engaged only on signed work; contractor cost £450–£550
Clinical adviser / Clinical Safety Officer (contracted)	Pass-through + 15% coordination (ESTIMATE)	—	Named only with consent; fees TO VALIDATE at contracting
Workshop facilitation (C10)	£4,000 per day all-in (range £2,500–£6,000)	—	15–25 participants; materials included

Floor: no founder day is sold below £1,200. If buyers consistently push below £900, the response is repositioning to associate-led delivery, not a lower founder rate (/docs/01_BUSINESS_MODEL.md §8, item 2).

3. Consulting packages (fixed fees)

Code	Package	Duration	Founder days	Fixed fee (ESTIMATE)	Implied day-rate cover
C1	Digital Health Discovery Sprint	2 weeks	8 (+2 associate)	£14,000	£1,500 founder + associate + expenses
C2	Business Case & Funding Sprint	3 weeks	10	£18,000	£1,800
C3	Digital Maternity Readiness Review	4 weeks	12	£24,000	£2,000 incl. clinical adviser time
C4	UK Market-Entry Playbook	4 weeks	10	£22,000	£2,200 incl. NHS-experienced associate
C5	Africa Market-Entry & Partner Scan	4 weeks	10	£20,000	£2,000 incl. in-country associate
C6	DTAC & Evidence Readiness Sprint	3 weeks	8	£15,000	£1,875 incl. CSO input
C7	Grant & Investor Readiness Sprint	2 weeks	6	£9,500	£1,583
C8	Health Inequalities & Maternity Outcomes Review	5 weeks	14	£28,000	£2,000 incl. community-partner fees
C9	Programme Evaluation Lite	6 weeks	~12 + associate	£26,000	£1,600 blended
C10	Corporate Workshop (1 day)	1 day	1.5	£4,000	£2,667
—	Cohort training programme	4–8 weeks	6–12	£15,000–£40,000	Per scope

Rules: (a) packages with a "Proof required to sell" gate (C3, C5, C8, C9; CSO element of C6) are not quoted until the capability exists; (b) desk-only variants of C5 are priced at £14,000–£16,000 with the reduced scope stated; (c) NHS framework or sub-contract routes may impose the prime's rates — accept only above the £1,200 floor.

4. Advisory retainers and fractional roles

Code	Offer	Days/month	Monthly fee (ESTIMATE)	Minimum term	Notes
A2-S	Retainer — light	1.5	£2,500–£3,000	3 months	Founders pre-seed; NGOs
A2	Retainer — standard	2	£4,000	3 months	Model case; ~2.5 days delivered including responsiveness
A2-L	Retainer — extended	3–4	£5,500–£6,000	3 months	Series A scale-ups; programmes
A3	Fractional Chief Digital / Strategy Officer	4–6	£5,500–£8,000	6 months	Includes board papers; excludes line management
—	Board advisory (non-executive style)	0.5–1	£1,000–£2,000 or equity where appropriate	12 months	Conflict register applies; equity TO VALIDATE case by case

Retainer rules: monthly in advance; 30 days' notice; unused days do not roll over beyond one month; maximum five concurrent retainers/fractional roles across the firm (founder capacity); annual price review of $\pm 10\%$ maximum without a new agreement.

5. MaternaLink (in development) — pilot and licence ranges

These ranges are for scoping conversations only. Nothing is sold until the four gates close (IP documented, prototype audited, Clinical Safety Officer and hazard log, DPIA). The £300 per woman per year figure in the March 2026 Ekiti proposal is UNVALIDATED (FACTS_BASE A5) and is not used.

Buyer	Model	Range (ESTIMATE)	What is included	What is priced separately
UK NHS trust — design partnership / service evaluation	No fee or nominal fee	£0–£5,000	Safety case, DPIA template, training, support for a 3–6-month evaluation with one team	Nothing; the trust provides the CSO (DCB0160) and cohort
UK — first paid pilot (private maternity or NGO programme licence)	Pilot fee	£10,000–£40,000	Configuration, onboarding, support, evaluation reporting	Any integration work
UK NHS trust — paid pilot after evaluation	Pilot fee	£20,000–£60,000 (up to £150,000 for multi-site)	As above for a defined cohort and period	Integration (v2), devices
UK NHS trust — annual site licence (post-pilot)	Annual SaaS, banded by births/year	£40,000–£120,000/yr ($\approx$ £8–£25 per birth at 5,000 births/yr) + implementation £15,000–£40,000	Platform, hosting UK region, support, safety and DSPT artefacts	Integration beyond supported interfaces
UK private maternity / independent midwives	Per woman per episode	£30–£80	Platform and support	—
UK employers / benefits platforms	Per employee per month or per supported pregnancy	£2–£6 PEPM or £150–£300 per pregnancy	Non-clinical positioning; DPIA	—

Buyer	Model	Range (ESTIMATE)	What is included	What is priced separately
Africa — state government / SPHCDA (often donor-funded)	Per woman per year, platform layer	£6–£40 (illustrative £20) + implementation and training £50,000–£150,000	Platform, local-hosting option, DHIS2-compatible exports, programme dashboard	SMS/voice at pass-through (~£0.50–£1.00 per woman per year at ~60 SMS, TO VALIDATE); devices; CHEW training beyond onboarding
Africa — NGO / donor programme	Programme licence per cohort per year	£8,000–£60,000 depending on cohort size	Enrolment, SMS workflows, defaulter tracing, logframe exports, M&E support	SMS pass-through; in-person training days at C10 rates
Africa — insurers / HMOs	Per enrolled pregnancy per year	£3–£12	Engagement and adherence dashboards (aggregate only)	—
Telecom / white-label (later)	Set-up + per user per year	£25,000–£75,000 + £2–£8	Branded patient-facing layer	Data-residency configuration

Illustrative re-based programme (from /docs/04_MATERNALINK_PRODUCT_STRATEGY.md §9): 15,000 women × £20 = £300,000/yr platform + SMS pass-through + implementation £50k–£150k ≈ **£0.4m–£0.6m per year**, i.e. a credible Phase 1 envelope under £0.5m/yr — not £4.5m. First Nigeria pilot funding expected in the £0.1m–£0.3m range (ESTIMATE, donor or state).

6. E-Learning pricing

Product	Price (ESTIMATE)	Launch (ESTIMATE)	Notes
Self-paced course (UK/global)	£49–£299 (anchor £149)	Month 9 (courses E1, E2)	3–6 hours; certificate of completion only; no accreditation claimed
Self-paced course (Nigeria, Kenya, Ghana regional pricing)	£10–£40	Month 9	PPP-adjusted; local payment methods TO VALIDATE
Subscription library	£19/month · £190/year	Month 12	All courses, monthly live clinic, community
Small-team subscription (5 seats)	£490–£990/year	Month 12	—
Corporate licence	£2,500 (10 seats) · £9,000 (50) · £25,000 (250)	Month 12	Includes one live workshop per year
University licence	£3,000–£8,000 per programme per year	Month 15–18	TO VALIDATE; universities may prefer co-authorship
Co-branded NGO/programme course	£15,000–£40,000 project fee + £5–£15 per learner	Month 18	Localised; named clinical reviewer
Free tier	£0	Month 6	Primers, newsletter, webinars — waitlist funnel

Refunds: 14-day consumer cancellation right where applicable (Consumer Rights Act 2015; TO VALIDATE for digital content accessed immediately); auto-renewal disclosed clearly.

7. Discount guardrails

Situation	Maximum discount	Conditions
Founder discretion (any reason)	10%	Written reason in the CRM; never on the call
Multi-package bundle (two or more packages signed together)	15% on the bundle	Scope fixed at signature; not stackable with other discounts
Retainer paid quarterly in advance	5%	—
Charity, community organisation or NGO with no donor funding	Up to 20% or an "at-cost" day rate of £900	One such engagement at a time; at-cost days capped at 10 per quarter
Pro bono	100%	Capped at 5 founder days per quarter; a written scope; used for community-partner relationship-building (e.g. maternity voices organisations)
Sub-contract to a larger consultancy	Rate set by prime	Never below the £1,200 founder floor
Pricing change > 20% on any list price	Requires division P&L owner approval (/docs/02_GROUP_STRUCTURE.md §4.3)	Board informed

Never: discount below the day-rate floor; trade a discount for a testimonial or logo (consent rules apply regardless); offer "free pilots" of MaternaLink outside the defined design-partnership model; discount E-Learning below regional pricing.

Concentration rule: no client above 40% of trailing six-month revenue by month 9
(/docs/01_BUSINESS_MODEL.md risks).

8. Payment terms

Item	Term
Fixed-fee engagements under £20,000	50% on signature; 50% on acceptance of the final deliverable
Fixed-fee engagements of £20,000 or more	40% on signature; 30% at interim readout; 30% on acceptance
Retainers and fractional roles	Monthly in advance
Advisory days	Invoiced on booking for single days; monthly in arrears for blocks under a retainer
Workshops and training	100% on booking (cancellation: 50% within 14 days, 100% within 7 days)
E-Learning	Card payment at purchase; subscriptions monthly/annually in advance
MaternaLink pilots (when applicable)	50% on signature, 50% at go-live; annual licences annually in advance; SMS pass-through monthly in arrears
Payment terms	14 days from invoice; late-payment interest and compensation per the Late Payment of Commercial Debts (Interest) Act 1998
Expenses	At cost with prior written approval; none unless stated in the SOW
Currency	GBP; overseas clients invoiced in GBP unless agreed; FX risk stated in the SOW

Item	Term
VAT	Prices exclude VAT; charged if/when registered (TO VALIDATE threshold and voluntary registration for B2B credibility)
Public-sector purchase orders	Accepted; work starts on PO receipt where 50% upfront is not possible

Note: `/docs/13_SALES_ENGINE.md` §9 uses a £10k threshold for the 50%-upfront rule; this document and `/docs/01_BUSINESS_MODEL.md` §5 use £20k. Reconcile in the MSA at solicitor review (recommendation: £20k).

9. Price list summary (for the website "from" prices)

Offer	From (ESTIMATE, ex-VAT)
Advisory day	£1,200
Advisory retainer	£2,500/month
Fractional Chief Digital / Strategy Officer	£5,500/month
Consulting sprints	£9,500
Workshops	£2,500
E-Learning courses	£49 (regional pricing from £10)
MaternaLink (in development)	Not for sale — design-partnership and pilot conversations only

Priorities / Risks / Next actions

Priorities

1. Test three price points (list, +15%, –10%) across the first six proposals and record objections and outcomes in the CRM.
2. Reconcile the 50%-upfront threshold (£10k vs £20k) in the MSA at solicitor review; publish "from" prices on the website package pages.
3. Retire the £300/woman/year figure from every conversation; use the \$5 ranges and the £0.4m–£0.6m re-based programme illustration.

Risks

- Buyers anchor on associate-level rates for founder-led work; mitigation: the £1,200 floor and the repositioning rule.
- MaternaLink ranges are quoted as prices before the gates close; mitigation: \$5 header language in every conversation; no written quote for MaternaLink before gate closure.
- Under-pricing packages that need contracted specialists (C3, C6, C8); mitigation: pass-through plus 15% coordination built into the fixed fee.

Next actions

- Founder, by Day 21: price list on the website; proposal options table wired to this document.
- Founder, by Day 45: first pricing test results logged; day-rate floor confirmed or revised with a written reason.

- Founder, by Day 90: E-Learning price points validated with the waitlist survey; MaternaLink \$5 ranges reviewed against any partner conversation.
