3. Vytalix Consulting — ten fixed-price packages	4
4. Vytalix E-Learning (from month 9, ESTIMATE; register interest now)	5
5. What we do not sell	6
Priorities / Risks / Next actions	7

Advisory · Consulting · E-Learning · Version 1.0 · 8 September 2026 · Status: PROPOSED

Governed by [/FACTS_BASE.md](#) . Prices are consistent with [/docs/01_BUSINESS_MODEL.md](#) §4–§6 and [/assets/PRICING_STRUCTURE.md](#) ; all are ESTIMATE, quoted exclusive of VAT (VAT status TO VALIDATE), and shown as "from" on the website. Every package is founder-led; associates are engaged only on signed work.

Executive view

1. Three Advisory formats (day, retainer, fractional), ten fixed-price Consulting packages (C1–C10) and one training format are sellable now; four E-Learning products follow from month 9 (ESTIMATE) and are listed so that buyers can register interest.
2. Every package has a defined scope, named deliverables, a duration, an indicative price, an ideal buyer and the outcome it is designed to produce — fixed scope, fixed price, written change control.
3. Prices are anchored on a founder day rate of £1,200–£1,800 (model £1,500) and an associate day rate of £700–£1,000; a package is never priced below the founder days it consumes ([/docs/01_BUSINESS_MODEL.md](#) §3).
4. Some packages require capability that does not exist yet (a clinical adviser, a contracted Clinical Safety Officer, an in-country associate network); each is marked "Proof required to sell" and must not be sold until that is in place.
5. Advisory and consulting engagements are designed to process no patient data; anything involving patient data is routed to Vytalix Health Solutions and its safety and data-protection gates.

1. How to read this catalogue

Field	Meaning
Scope	What the engagement covers and, where important, what it does not
Deliverables	The documents, models or sessions the client receives; each has an acceptance criterion in the proposal
Duration	Elapsed time from kick-off, assuming client dependencies are met
Indicative price	Fixed fee (ESTIMATE); founder days shown for transparency; change control applies
Who it is for	The ideal buyer and segment code from /docs/13_SALES_ENGINE.md §1 (S1 health-tech founders; S2 investors/accelerators; S3 NHS-adjacent; S4 African governments, NGOs, donors; S5 corporates/insurers; S6 individual learners)
Outcomes	What the client should be able to do the week after, stated without guarantees

Commercial rules (from [/docs/01_BUSINESS_MODEL.md](#) §5): 50% on signing for engagements under £20k, 40/30/30 milestones above; retainers monthly in advance; every engagement produces at least one anonymised reusable asset; no engagement that conflicts with MaternaLink's future customers without disclosure.

2. Vytalix Advisory

A1 — Founder-led Advisory Day

- **Scope:** one day (on-site or remote) of senior, independent advice on a defined question: digital-health strategy, NHS or African market entry, regulatory pathway, pricing, investor or grant readiness, board preparation.
- **Deliverables:** pre-read questionnaire; the working session; a two-page written note within 48 hours with decisions, options and next steps.
- **Duration:** 1 day (booked in blocks of 1–5).
- **Indicative price:** £1,200–£1,800 per day (ESTIMATE; model uses £1,500); 1 founder day.
- **Who it is for:** any segment; most often S1 founders and S2 programmes needing a quick, candid second opinion.
- **Outcomes:** a clear answer or a clearly framed decision; the note is reusable with a board or investor.

A2 — Advisory Retainer

- **Scope:** two days per month of advisory access — scheduled sessions, document review, introductions where appropriate, availability for short calls between sessions. Three-month minimum. No delivery work (that is a Consulting package).
- **Deliverables:** monthly agenda and written notes; quarterly written review of progress against the client's stated objectives.
- **Duration:** rolling monthly; 3–6-month minimum term; 30 days' notice.
- **Indicative price:** £4,000 per month for 2 days (ESTIMATE; range £2,500–£6,000 for 1.5–4 days); ~2.5 founder days including responsiveness.
- **Who it is for:** S1 health-tech founders (pre-seed to Series A), NGOs and SME providers; S2 accelerators for portfolio support.
- **Outcomes:** faster, better-informed decisions on go-to-market, regulation and funding; a documented decision trail.

A3 — Fractional Chief Digital / Strategy Officer

- **Scope:** 4–6 embedded days per month acting as the organisation's senior digital or strategy lead: roadmap, vendor and procurement decisions, board papers, team coaching. Excludes line management and any clinical decision-making.
- **Deliverables:** a 30-day assessment; a 6-month roadmap; monthly board-level update; handover pack at exit.
- **Duration:** 6 months (renewable).
- **Indicative price:** £5,500–£8,000 per month (ESTIMATE); 4–6 founder days.
- **Who it is for:** scale-ups, private providers and NGOs (S1, S4, S5) that need senior capacity without a permanent hire.
- **Outcomes:** an executed roadmap rather than a report; organisational capability that outlasts the engagement.
- **Proof required to sell:** founder seniority and references (TO VALIDATE against the founder's CV).

3. Vytalix Consulting — ten fixed-price packages

C1 — Digital Health Discovery Sprint

- **Scope:** "We know we need digital but not what, for whom, or what it costs." Problem framing, 10–15 user and stakeholder interviews, option appraisal, a 90-day roadmap. No build.
- **Deliverables:** problem statement; interview synthesis; three-option appraisal with cost ranges; 90-day roadmap; a 45-minute readout.
- **Duration:** 2 weeks.
- **Indicative price:** £14,000 (ESTIMATE); 8 founder days + 2 associate days.
- **Who it is for:** private providers, NHS service lines, health-tech vendors (S1, S3).
- **Outcomes:** a decision on what to build, buy or stop, with a plan the organisation can fund.

C2 — Business Case & Funding Sprint

- **Scope:** a board-ready or HM Treasury Green Book-style five-case business case (strategic, economic, commercial, financial, management) with a benefits model and funding routes.
- **Deliverables:** business case document; benefits and cost model (spreadsheet); funding-route options; one revision round after board feedback.
- **Duration:** 3 weeks.
- **Indicative price:** £18,000 (ESTIMATE); 10 founder days.
- **Who it is for:** NHS programme leads, charities, NGOs (S3, S4).
- **Outcomes:** a case that can be submitted for internal approval, a grant or a donor.

C3 — Digital Maternity Readiness Review

- **Scope:** for maternity units adopting digital records or responding to CNST Maternity Incentive Scheme data actions and CQC findings: current-state map, gap analysis against the Three Year Delivery Plan and MSDS requirements, prioritised plan. Not a clinical audit.
- **Deliverables:** current-state map; gap analysis; prioritised 12-month plan; leadership workshop.
- **Duration:** 4 weeks.
- **Indicative price:** £24,000 (ESTIMATE); 12 founder days.
- **Who it is for:** Heads of Midwifery, Maternity Digital Leads, Divisional Directors, private maternity units (S3).
- **Outcomes:** a defensible plan mapped to the standards the unit is already measured against.
- **Proof required to sell:** a clinical adviser (midwife or obstetrician) on the team — TO RECRUIT; not sold before then.

C4 — UK Market-Entry Playbook for Health-Tech

- **Scope:** for non-UK health-tech companies wanting NHS customers: NHS structure brief, buyer map, assurance checklist (DTAC, DCB0129, DSPT, MHRA), pricing benchmarks, 12-month entry plan.
- **Deliverables:** playbook document; buyer map; assurance checklist; pricing benchmark note; 12-month plan; two working sessions.
- **Duration:** 4 weeks.
- **Indicative price:** £22,000 (ESTIMATE); 10 founder days.
- **Who it is for:** US, EU and African health-tech scale-ups (S1).
- **Outcomes:** the company knows who buys, what evidence they require and what it will cost to be ready.
- **Proof required to sell:** case examples and an NHS-experienced associate (TO ENGAGE on signed work).

C5 — Africa Market-Entry & Partner Scan

- **Scope:** for UK/EU vendors and NGOs entering Nigeria, Kenya or Ghana: country scorecard, regulatory brief (NDPA 2023, NAFDAC where relevant, NHIA/SHA), partner long-list, entry-model options.
- **Deliverables:** scorecard; regulatory brief; partner long-list (20+ organisations, public information only); entry-model options paper; readout.
- **Duration:** 4 weeks.
- **Indicative price:** £20,000 (ESTIMATE); 10 founder days.
- **Who it is for:** health-tech companies, NGOs, foundations (S1, S4).
- **Outcomes:** a ranked view of where and how to enter, and whom to talk to first.
- **Proof required to sell:** in-country associate network (TO BUILD); until then, scope is desk-based and priced accordingly.

C6 — DTAC & Evidence Readiness Sprint

- **Scope:** for vendors blocked by NHS assurance: DTAC self-assessment, clinical safety case skeleton (DCB0129), DSPT plan, NICE Evidence Standards Framework tier mapping. Not a substitute for the vendor's own Clinical Safety Officer sign-off.
- **Deliverables:** DTAC self-assessment with gap list; safety case skeleton and initial hazard log; DSPT action plan; evidence-tier mapping; 12-week readiness sequence.
- **Duration:** 3 weeks.
- **Indicative price:** £15,000 (ESTIMATE); 8 founder days.
- **Who it is for:** health-tech vendors (S1).
- **Outcomes:** the vendor can answer a buyer's DTAC questions with documents rather than promises.
- **Proof required to sell:** a contracted Clinical Safety Officer for the safety-case element (TO CONTRACT).

C7 — Grant & Investor Readiness Sprint

- **Scope:** for founders who need a fundable narrative and a grant pipeline: investor deck review and rewrite, financial-model sanity check, grant calendar (Innovate UK, NIHR, SBRI Healthcare and relevant foundations), three bid outlines.
- **Deliverables:** revised deck; model review note; grant calendar; three bid outlines; a mock pitch session.
- **Duration:** 2 weeks.
- **Indicative price:** £9,500 (ESTIMATE); 6 founder days.
- **Who it is for:** pre-seed and seed health-tech founders (S1).
- **Outcomes:** a deck and a bid plan the founder can use the following week; no funding outcome is promised.

C8 — Health Inequalities & Maternity Outcomes Review

- **Scope:** for trusts, ICBs and charities responding to MBRRACE-UK disparities, CQC or Ockenden-style findings: data review, a listening exercise with service users via community partners, an equity action plan and a measurement framework. Uses aggregate data only; no patient-level data is processed by Vytalix.
- **Deliverables:** data review; listening-exercise report; equity action plan; measurement framework; board presentation.
- **Duration:** 5 weeks.

- **Indicative price:** £28,000 (ESTIMATE); 14 founder days.
- **Who it is for:** trusts, ICBs, maternity charities (S3).
- **Outcomes:** an action plan grounded in what women and staff actually said, with measures the board can track.
- **Proof required to sell:** community-partner relationships (none claimed today; to be built with paid briefs).

C9 — Programme Evaluation Lite

- **Scope:** for donors, NGOs and state programmes needing an evaluation of a digital-health programme: theory of change, indicators, mixed-methods review, report. Professional interviews and programme data only; not a clinical study.
- **Deliverables:** theory of change; indicator framework; evaluation report with limitations; recommendations; donor-ready summary.
- **Duration:** 6 weeks.
- **Indicative price:** £26,000 (ESTIMATE); ~12 founder days plus associate days.
- **Who it is for:** NGOs, foundations, state programmes (S4).
- **Outcomes:** an honest account of what the programme did and what to change; material for the next funding cycle.
- **Proof required to sell:** partnership with a university group for rigour where the client requires it (TO ESTABLISH).

C10 — Corporate Workshop (one day)

- **Scope:** a facilitated one-day workshop for 15–25 people on a defined topic: digital maternity essentials, selling to the NHS, intended use and medical-device boundaries, safe use of AI in health operations, grant readiness.
- **Deliverables:** pre-workshop survey; materials; the session (on-site or virtual); a follow-up note with actions.
- **Duration:** 1 day (plus preparation).
- **Indicative price:** £4,000 (ESTIMATE; range £2,500–£6,000); 1.5 founder days. Cohort programmes £15k–£40k.
- **Who it is for:** NHS maternity and digital teams, private providers, NGOs, health-tech scale-ups (S3, S4, S5).
- **Outcomes:** a shared vocabulary and an action list; no accreditation or CPD points are claimed.

Package selector

Client says	Start with
"We don't know what to build"	C1
"We need approval or funding for a programme"	C2, C7
"Our maternity unit must respond to a standard or a finding"	C3, C8
"We want NHS customers and don't know how"	C4, then C6
"We want to enter Nigeria / Kenya / Ghana"	C5
"A buyer asked us about DTAC"	C6
"A donor wants to know whether our programme worked"	C9

Client says	Start with
"We need senior capacity for six months"	A3
"We need a sounding board"	A1, A2

4. Vytalix E-Learning (from month 9, ESTIMATE; register interest now)

No accreditation is held or claimed. Language: "designed to support continuing professional development"; "certificate of completion" only. Clinical content will have a named clinical author and reviewer, a review date and a disclaimer that it does not replace local guidance (/docs/01_BUSINESS_MODEL.md §6.3).

Product	Scope	Format and duration	Indicative price (ESTIMATE)	Who it is for	Outcome
E1 Health-Tech Commercialisation in the NHS (course 2; first to launch)	NHS structure, buyers, DTAC, procurement routes, pricing, evidence	Self-paced, 3–6 hours, quizzes, templates	£49–£299 UK; £10–£40 regional	Founders, product and commercial leads (S1, S6)	A 12-month NHS entry plan the learner drafts during the course
E2 Grants and Investor Readiness for Health-Tech Founders (course 4; launches with E1)	Grant landscape, bid structure, investor narrative, model hygiene	Self-paced, 3–6 hours	£49–£299 UK; £10–£40 regional	Founders (S1, S6)	A grant calendar and a bid outline
E3 Digital Maternity Essentials for Midwives and Maternity Teams (course 1; months 12–15, needs clinical co-author)	Digital records, communication tools, safeguarding online, data protection basics	Self-paced, 3–6 hours	£49–£149 UK; £10–£40 regional	Midwives, maternity support workers, students (S6)	Confident, safe use of digital tools in the unit; no clinical guidance replaced
E4 Care Coordination in Low-Resource Maternal Health Settings (course 3; months 12–15, needs clinical co-author)	Contact schedules, referral coordination, SMS programmes, defaulter tracing, data for donors	Self-paced, 3–6 hours, audio-first variants	£10–£40 regional; £49–£149 UK	CHEWs, nurse-midwives, programme officers (S4, S6)	Practical tools the learner can apply in their programme
Subscription library	All courses, monthly live clinic, community	Monthly / annual	£19/month; £190/year	Individual professionals	Ongoing access
Corporate licence	Seat-based access plus one live workshop per year	Annual	£2,500 (10 seats); £9,000 (50); £25,000 (250)	Employers, NHS teams, NGOs (S3, S5)	Team-wide baseline capability
University licence	Course embedded in midwifery, public-health or informatics programmes	Annual per programme	£3,000–£8,000 (TO VALIDATE)	Universities	Curriculum content with a named reviewer
Co-branded programme	Localised course for an NGO's or programme's health workers	Project fee + per learner	£15k–£40k + £5–£15/learner (TO VALIDATE)	NGOs, donor programmes (S4)	Training aligned to the programme's own protocols

5. What we do not sell

- Clinical services, clinical audits or anything requiring a registered clinician's judgement about an individual patient.
- MaternaLink (in development) as a finished product. It is available only as a pilot or design-partnership conversation with explicit gates (/assets/PARTNERSHIP_DECK.md ; pricing ranges in /assets/PRICING_STRUCTURE.md §5).
- Regulatory or legal advice presented as certainty; we map the pathway and name when to instruct qualified advisers.
- Work that requires Vytalix to process patient data under an advisory or consulting contract.

Priorities / Risks / Next actions

Priorities

1. Publish one-page versions of A1, A2, C1, C6 and C7 on the website first (no external capability needed; shortest sales cycle — S1/S2 rule in /docs/13_SALES_ENGINE.md §1).
2. Recruit the clinical adviser and contract a Clinical Safety Officer so that C3, C6 (safety-case element) and C8 become sellable within 60 days.
3. Test three price points in the first six proposals and record objections (/docs/01_BUSINESS_MODEL.md §8, item 2).

Risks

- Selling C3, C5, C8 or C9 before the required capability exists; mitigation: "Proof required to sell" is a hard gate, checked at proposal stage.
- Scope creep on fixed fees; mitigation: written change control in every SOW (/assets/PROPOSAL_TEMPLATE.md §9).
- Accreditation language creeping into E-Learning copy; mitigation: the §4 wording is fixed until an accreditor grants status.

Next actions

- Founder, by Day 30: website package pages live with "from" prices; catalogue PDF on letterhead.
- Founder, by Day 45: first two proposals issued using /assets/PROPOSAL_TEMPLATE.md .
- Founder, by Day 60: clinical adviser and CSO conversations concluded; C3/C6/C8 status updated here.
