1. Octopus Ventures (VX-001)

- Investor:** Octopus Ventures — Venture Capital (Multi-stage VC with dedicated health team and pre-seed programme), London, United Kingdom — <https://octopusventures.com/>
- Why they fit Vytalix:** Octopus runs a dedicated £100k pre-seed programme plus a health team that has already led rounds in women's-health companies (Vira Health), so it can meet Vytalix at pre-formation stage and follow on.
- Why they fit MaternaLink:** MaternaLink fit 7/10 — Yes - dedicated health investment team (digital health, healthtech, bio); health-investments page
- Investment stage:** Pre-seed (standard £100k cheque via pre-seed team), Seed, Series A, Series B+

5. **Typical ticket:** £100k pre-seed; £1m-£10m seed/Series A (per octopusventures.com FAQ / partnershipsbuddy summary)
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Web pitch form: <https://octopusventures.com/contact/> (pre-seed team makes decisions within ~2 weeks per FAQ)
8. **Relevant decision maker:** Will Gibbs (Partner, Health team (name from prior knowledge - confirm on team page))
9. **Best introduction route:** Possible - via Vira Health or Perci Health founders (women's-health portfolio) or Octopus pre-seed alumni
10. **Relevant previous investment:** Vira Health (menopause / older women's health; led \$12m seed), Perci Health (cancer survivorship digital care), Elvie (women's health hardware - prior knowledge)
11. **Strategic value:** 12/15 strategic, 9/10 network — Registered address 33 Holborn, London EC1N 2HT (Companies House). Official contact page pushes online pitch submission; no team phone shown in official-domain search results. A personal staff email surfaced in a search s
12. **Likely objection:** Octopus will ask why a services-led group with an undocumented MaternaLink IP position and no UK clinical partner is a venture-scale software company rather than a consultancy.
13. **Recommended pitch angle:** Position MaternaLink (in development) as a UK-first maternal care-coordination platform aimed at the MBRRACE-UK Black maternal-outcomes gap, with a clear IP-consolidation and NHS pilot plan before asking for the £100k pre-seed cheque.
14. **Priority score:** Fit 85/100 · Contactability 6/10 · Overall 81 · Tier A
15. **Next action:** Verify phone via official contact page; send personalised email/LinkedIn to Will Gibbs; seek warm intro.

2. Ada Ventures (VX-002)

1. **Investor:** Ada Ventures — Venture Capital (Inclusive pre-seed / seed VC (themes: healthy ageing, climate equity, economic empowerment)), London, United Kingdom — <https://www.adaventures.com/>
2. **Why they fit Vytalix:** Ada writes £250k-£1.5m pre-seed cheques through an open portal, has a health theme and an explicit inclusion mandate that aligns with MaternaLink's focus on Black maternal-health disparities.
3. **Why they fit MaternaLink:** MaternaLink fit 7/10 — Yes - healthy ageing / health is one of three core themes; healthcare Venture Partners (e.g. Alasdair Thong)
4. **Investment stage:** Pre-seed, Seed
5. **Typical ticket:** £250k-£1.5m (Fund II, per adventures.com / Better Society Capital)
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Web pitch portal on <https://www.adaventures.com/> (dedicated founder submission form; open to cold applications)
8. **Relevant decision maker:** Check Warner (Co-founder and Partner (name from prior knowledge - confirm on team page))
9. **Best introduction route:** Possible - via Ada Scouts network (community scouts paid to refer under-represented founders)
10. **Relevant previous investment:** Multiomic Health (metabolic health), plus Fund I health companies (e.g. Bippit / Organise - non-health; prior knowledge not verified)

11. **Strategic value:** 9/15 strategic, 7/10 network — Explicitly backs 'the best, not just the best-connected' with an open portal - strong fit for a Black founder building for Black maternal outcomes. Better Society Capital is an LP in Fund I (impact lens). No phone shown
12. **Likely objection:** Ada's health theme is framed around healthy ageing, so it may see a maternal-health platform with a Nigeria government-sales story as off-thesis and too early on evidence.
13. **Recommended pitch angle:** Lead with the UK Black maternal-outcomes gap as an equity problem, the founder's lived proximity to it, and a UK-first care-coordination v1 with a costed pilot, keeping Nigeria as a later option value.
14. **Priority score:** Fit 82/100 · Contactability 6/10 · Overall 79 · Tier A
15. **Next action:** Verify phone via official contact page; send personalised email/LinkedIn to Check Warner; seek warm intro.

3. TLcom Capital (VX-003)

1. **Investor:** TLcom Capital — Venture Capital (Africa-focused seed/Series A VC (UK-registered LLP with Lagos and Nairobi offices)), London (also Lagos, Nairobi), United Kingdom — <https://www.tlcomcapital.com>
2. **Why they fit Vytalix:** A London-registered Africa fund with Lagos and Nairobi offices, a healthcare mandate (Ilara Health) and a Lagos partner explicitly tasked with pre-seed and female-founder deals.
3. **Why they fit MaternaLink:** MaternaLink fit 7/10 — Yes - healthcare is a named sector; portfolio includes Ilara Health (Kenya)
4. **Investment stage:** Pre-seed (selective), Seed, Series A
5. **Typical ticket:** US\$500k-US\$15m for seed and Series A; smaller pre-seed cheques via Eloho Oname's pre-seed mandate
6. **Phone number:** +44 20 82377070 (London); +234 708 4974244 (Lagos) (VERIFIED 2026-09-07 (source in phone_source_url); source: <https://tlcomcapital.com/contact-us>)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Pitch page <https://www.tlcomcapital.com/contact> ('Pitch to Us'); email info@tlcomcapital.com; London office +44 20 82377070
8. **Relevant decision maker:** Eloho Oname (Partner (Lagos; leads pre-seed and female-founder investing))
9. **Best introduction route:** Possible - via FirstCheck Africa (Eloho Oname's female-founder community) or Nigerian portfolio founders
10. **Relevant previous investment:** Ilara Health (health-tech, Kenya), Pula (agri-insurance), Andela, Twiga, uLesson
11. **Strategic value:** 13/15 strategic, 9/10 network — UK LLP (Companies House OC315522) - useful for a UK-domiciled company investing into Nigeria. Fund II size from prior knowledge - TO VALIDATE; search confirmed US\$70m first close of the US\$150m target.
12. **Likely objection:** Core cheques start at US\$500k for companies with a live product and revenue in an African market, so Vytalix would need a Nigerian pilot and a documented MaternaLink IP position first.
13. **Recommended pitch angle:** Approach Eloho Oname's pre-seed track with a maternal-health thesis for Nigeria, emphasising the UK-Nigeria structure and NHS-grade clinical governance as differentiation.
14. **Priority score:** Fit 77/100 · Contactability 9/10 · Overall 79 · Tier B
15. **Next action:** Call to qualify fit and process; log outcome; send one-pager.

4. Goddess Gaia Ventures (VX-004)

1. **Investor:** Goddess Gaia Ventures — Venture Capital (Women's-health / femtech VC (pre-Series A)), London, United Kingdom — <https://www.ggventuresgroup.com/>
2. **Why they fit Vytalix:** The only UK-based fund investing exclusively in women's health at pre-Series A, so MaternaLink's Black-maternal-health focus fits its mandate directly.
3. **Why they fit MaternaLink:** MaternaLink fit 10/10 — Yes – exclusively women's health, wellness and femtech (fertility, menopause, oncology, maternal, mental health)
4. **Investment stage:** Pre-seed, seed, pre-Series A
5. **Typical ticket:** ESTIMATE £100k–£500k (not published; confirm)
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Web contact form: <https://www.ggventuresgroup.com/contact-8>; LinkedIn to Priya Oberoi
8. **Relevant decision maker:** Priya Oberoi (Founder & General Partner – confirm on team page)
9. **Best introduction route:** Possible – via UK femtech community events (Femtech Lab, Women of Wearables) where the GP speaks
10. **Relevant previous investment:** Portfolio page lists early-stage women's-health companies (see <https://www.ggventuresgroup.com/portfolio>); specific names TO VALIDATE
11. **Strategic value:** 10/15 strategic, 6/10 network — Registered office shown in search result as 35 Berkeley Square, London W1J 6ER (from official site). Two domains in use: ggventuresgroup.com and goddessgaiaventures.com. No phone or email surfaced in official search resu
12. **Likely objection:** Vytalix is pre-incorporation with unresolved MaternaLink IP ownership and no clinical partner, which a small fund cannot underwrite.
13. **Recommended pitch angle:** Lead with the MBRRACE-UK disparity data and a concrete NHS maternity pilot plan, positioning MaternaLink as a care-coordination product with a UK-first path.
14. **Priority score:** Fit 81/100 · Contactability 6/10 · Overall 78 · Tier A
15. **Next action:** Verify phone via official contact page; send personalised email/LinkedIn to Priya Oberoi; seek warm intro.

5. AlbionVC (VX-005)

1. **Investor:** AlbionVC — Venture Capital (UK seed / Series A VC for B2B software and healthcare (VCT-backed; manages UCL Technology Fund)), London, United Kingdom — <https://albion.vc/>
2. **Why they fit Vytalix:** AlbionVC is one of the few UK VCs with a dedicated healthtech practice, NHS-facing portfolio and a verified office line, making it a realistic seed lead once Vytalix has a UK pilot.
3. **Why they fit MaternaLink:** MaternaLink fit 5/10 — Yes - healthtech portfolio of c.15 companies (digital care, GP/hospital solutions, data aggregation, AI analytics, decentralised trials); Healthtech Hub; partnership with Harley Street Health District
4. **Investment stage:** Seed, Series A
5. **Typical ticket:** \$1m–\$5m initial (per privateequitylist summary); can go smaller via UCL Technology Fund
6. **Phone number:** +44 (0)20 7601 1850 (VERIFIED 2026-09-07 (source in phone_source_url); source: <https://albion.vc/contact-us/>)

7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Contact form <https://albion.vc/contact-us/> or office phone; Healthtech Hub <https://albion.vc/healthtech-hub/>
8. **Relevant decision maker:** Dr Christoph Ruedig (Partner, healthcare (name from prior knowledge - confirm on <https://albion.vc/team/>))
9. **Best introduction route:** Possible - via Harley Street Health District partnership, UCL Technology Fund network or Oviva alumni
10. **Relevant previous investment:** Oviva (virtual weight-management clinic, backed since 2016 seed), plus 15 healthtech companies across digital care and NHS-facing solutions; Freeline and Orchard Therapeutics (life sciences)
11. **Strategic value:** 13/15 strategic, 9/10 network — Phone and address (1 Benjamin Street, London EC1M 5QL) shown in official-domain (albion.vc) search results - a firm switchboard, not a direct investment line. Email on contact page is obfuscated in search results so not
12. **Likely objection:** Albion's healthcare team will ask for clinical evidence, NHS procurement understanding and a documented IP position, none of which Vytalix can evidence today.
13. **Recommended pitch angle:** Use the Harley Street Health District link: propose MaternaLink as a care-coordination pilot for a London maternity pathway with measurable outcome and equity metrics before requesting a seed cheque.
14. **Priority score:** Fit 80/100 · Contactability 7/10 · Overall 78 · Tier A
15. **Next action:** Call investment team using verified number; follow with personalised email same day.

6. Grand Challenges Canada (VX-006)

1. **Investor:** Grand Challenges Canada — Impact / DFI (Government-funded innovation platform (grants, repayable grants, equity) with explicit maternal, newborn and child health focus), Toronto, Canada — <https://www.grandchallenges.ca/>
2. **Why they fit Vytalix:** Grand Challenges Canada is one of the few funders whose core mandate is literally maternal and newborn health innovation in countries like Nigeria, with seed cheques sized for a pre-seed company.
3. **Why they fit MaternaLink:** MaternaLink fit 10/10 — Yes – maternal, newborn, child and women's health is a core programme area (e.g. Saving Lives at Birth legacy, Every Woman Every Child innovations)
4. **Investment stage:** Seed (c. CAD 100k–250k grants) to Transition To Scale (up to c. CAD 1m–2m repayable/equity)
5. **Typical ticket:** CAD 100k–2m by stream
6. **Phone number:** +1 (416) 673-6568 (VERIFIED 2026-09-07 from source shown, BUT QA 2026-09-08 found conflicting numbers (416-673-6567 in a government registry; 416-583-5821 in a directory for a newer MaRS West Tower address) – confirm on <https://www.grandchallenges.ca/> before calling; email info@grandchallenges.ca is the safer first route; source: <https://www.grandchallenges.ca/terms-and-conditions/>)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Open calls via <https://www.grandchallenges.ca/> (Fluxx portal); office at MaRS Centre, 661 University Avenue, Suite 1720, Toronto; phone +1 (416) 673-6568
8. **Relevant decision maker:** Karlee Silver (Chief Executive Officer)
9. **Best introduction route:** Possible – via Nigerian GCC-funded innovators and Nigeria Health Watch network

10. **Relevant previous investment:** Hundreds of maternal/newborn health innovations across Africa and Asia incl. Nigerian digital-health projects
11. **Strategic value:** 11/15 strategic, 8/10 network — Phone and address from official site (terms page). Most funding is grant or repayable grant; equity is used selectively at Transition To Scale. Calls require an LMIC implementing partner – Ekiti/other Nigerian partner wo
12. **Likely objection:** GCC needs a credible LMIC implementing partner and an evidence plan, and it may see MaternaLink as duplicating the MSD-for-Mothers-funded mDoc programme already running in Ekiti.
13. **Recommended pitch angle:** Apply with a Nigerian clinical or state partner for a seed grant testing maternal care-coordination in a state without an incumbent programme, positioning the AI risk-score as a later research track.
14. **Priority score:** Fit 78/100 · Contactability 7/10 · Overall 77 · Tier B
15. **Next action:** Call to qualify fit and process; log outcome; send one-pager.

7. Ventures Platform (VX-007)

1. **Investor:** Ventures Platform — Venture Capital (Africa-focused generalist VC (pre-seed to pre-Series A)), Lagos / Abuja, Nigeria — <https://www.venturesplatform.com>
2. **Why they fit Vytalix:** The most active Nigerian-headquartered early-stage fund, with health tech as a named sector and a fresh US\$84m Fund II (Aug 2026) that includes a pre-seed strategy.
3. **Why they fit MaternaLink:** MaternaLink fit 7/10 — Yes - health tech is a named sector; specific health names (e.g. Reliance Health, Remedial Health) are prior knowledge - TO VALIDATE
4. **Investment stage:** Pre-seed, Seed, Pre-Series A
5. **Typical ticket:** First cheque up to US\$3m, average ~US\$1.5m (Fund II); Fund I cheques were up to US\$1m
6. **Phone number:** +234 809 041 5327 (VERIFIED 2026-09-07 from official contact page; NOTE a different number (+234 908 874 3072) appears in third-party directories – confirm by calling the official number first; source: <https://www.venturesplatform.com/contact-us>)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Email hello@venturesplatform.com or web contact form <https://www.venturesplatform.com/contact-us>; phone +234 809 041 5327
8. **Relevant decision maker:** Kola Aina (Founder & General Partner)
9. **Best introduction route:** Possible - via Ventures Park (Abuja) community or any Nigerian portfolio founder
10. **Relevant previous investment:** Health tech named as a core sector across 90+ companies (per TechCrunch/TechCabal 2026); specific maternal-health names not confirmed in search
11. **Strategic value:** 12/15 strategic, 8/10 network — Anchor LP in Fund II includes Nigeria's iDICE programme, giving the fund a Nigerian public-sector link. Ticket has moved up-market with Fund II; a pre-formation UK entity is below their usual entry point unless the pre-s
12. **Likely objection:** Fund II average cheque is ~US\$1.5m and they expect an Africa-domiciled operating company with traction, whereas Vytalix is a UK pre-formation entity with an unresolved Ekiti proposal.
13. **Recommended pitch angle:** Lead with the Nigerian government-facing MaternaLink pipeline (Ekiti) and a Nigeria opco plan, positioning Vytalix as UK-quality maternal-care coordination software localised for Nigerian state health systems.
14. **Priority score:** Fit 77/100 · Contactability 8/10 · Overall 77 · Tier B
15. **Next action:** Call to qualify fit and process; log outcome; send one-pager.

8. Nina Capital (VX-008)

1. **Investor:** Nina Capital — Venture Capital (Specialist early-stage health-tech VC (regulated AIFM, three funds)), Barcelona, Spain — <https://www.nina.capital/>
2. **Why they fit Vytalix:** Nina is a pure-play pre-seed health-tech investor that backs UK companies, making it one of the few EU funds that could lead Vytalix's first round.
3. **Why they fit MaternaLink:** MaternaLink fit 6/10 — Yes – exclusively health technology (digital health, medtech, health data, AI)
4. **Investment stage:** Pre-seed and seed (first cheque), follow-on to Series A
5. **Typical ticket:** ESTIMATE €250k–€1.5m first cheque
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Web contact page: <https://www.nina.capital/contact>; LinkedIn to Marta G. Zanchi / Sebastian Anastassiou
8. **Relevant decision maker:** Marta G. Zanchi (Founder & Managing Partner (GP Marc Subirats; Partner & Head of Investments Sebastian Anastassiou) – confirm on team page)
9. **Best introduction route:** Possible – via Nina's Founder & Partner network or UK portfolio founders
10. **Relevant previous investment:** 30+ health-tech companies including several UK-headquartered ones (see <https://www.nina.capital/companies> – names TO VALIDATE)
11. **Strategic value:** 10/15 strategic, 7/10 network — Official contact page shows address C. Tuset 20, 5, 08006 Barcelona (2026-09-07). An earlier search had shown C. Balmes 211, Barcelona – possibly a previous address; use Tuset 20. Official site publishes diversity@nina.c
12. **Likely objection:** Nina invests in needs-validated products with founding teams in place, while Vytalix has no clinical partner, no incorporated entity and unresolved IP.
13. **Recommended pitch angle:** Use Nina's needs-led framework: present the maternal-care-coordination unmet need with MBRRACE-UK evidence and a defined first NHS trust pilot.
14. **Priority score:** Fit 79/100 · Contactability 6/10 · Overall 76 · Tier B
15. **Next action:** Email/LinkedIn introduction; request 20-minute call; verify phone.

9. GC Angels (VX-009)

1. **Investor:** GC Angels — Angel Network (Public-backed early-stage equity vehicle and angel co-investment arm of The Growth Company (Greater Manchester Combined Authority)), Manchester, United Kingdom — <https://gcangels.uk/>
2. **Why they fit Vytalix:** GC Angels writes small direct cheques alongside angels into pre-seed North West companies and sits inside Greater Manchester's devolved health system, a natural pilot environment for a maternity care-coordination platform.
3. **Why they fit MaternaLink:** MaternaLink fit 5/10 — Partial - health innovation is a Greater Manchester priority sector (Health Innovation Manchester ecosystem)
4. **Investment stage:** Pre-seed, Seed and early Series A
5. **Typical ticket:** GBP 50k-500k direct, co-invested alongside angels (ESTIMATE)
6. **Phone number:** 0161 233 2656 (VERIFIED 2026-09-07 (source in phone_source_url); source: <https://gcangels.uk/contact-us>)

7. **Email / contact route:** GCangels@growthco.uk — Email GCangels@growthco.uk or phone 0161 233 2656; enquiry form at <https://gcangels.uk/contact-us>
8. **Relevant decision maker:** NOT PUBLICLY IDENTIFIED (NOT PUBLICLY IDENTIFIED)
9. **Best introduction route:** Possible – via GC Business Growth Hub advisers or Health Innovation Manchester
10. **Relevant previous investment:** North West early-stage companies (TO VALIDATE on official site)
11. **Strategic value:** 9/15 strategic, 6/10 network — Invests public money directly, so requires a Greater Manchester/North West base; strong health-innovation ecosystem locally.
12. **Likely objection:** Public funding is tied to Greater Manchester economic benefit, so a London-based or Africa-first company would be ruled out unless it commits jobs to the region.
13. **Recommended pitch angle:** Frame Vytalix as a Manchester-based maternal-health platform and advisory business seeking SEIS co-investment, with Health Innovation Manchester as the target UK validation partner.
14. **Priority score:** Fit 74/100 · Contactability 9/10 · Overall 76 · Tier B
15. **Next action:** Call to qualify fit and process; log outcome; send one-pager.

10. Cambridge Enterprise Seed Funds (VX-010)

1. **Investor:** Cambridge Enterprise Seed Funds — University / Institutional Fund (University of Cambridge seed funds investing in Cambridge spin-outs and start-ups (managed by Cambridge Enterprise; Parkwalk manages associated EIS funds)), Cambridge, United Kingdom — <https://www.enterprise.cam.ac.uk/>
2. **Why they fit Vytalix:** Cambridge Enterprise Seed Funds back pre-revenue health ventures at true seed stage and carry strong follow-on investor networks.
3. **Why they fit MaternaLink:** MaternaLink fit 5/10 — Yes - life sciences, medtech and digital health are a large share of the portfolio
4. **Investment stage:** Pre-seed, Seed and follow-on
5. **Typical ticket:** GBP 100k-1m initial (ESTIMATE)
6. **Phone number:** 01223 763723 (VERIFIED 2026-09-07 (source in phone_source_url); source: <https://www.enterprise.cam.ac.uk/about/our-team/seeds-fund/>)
7. **Email / contact route:** CESF@enterprise.cam.ac.uk — Email CESF@enterprise.cam.ac.uk or phone 01223 763723 (Seed Funds team)
8. **Relevant decision maker:** NOT PUBLICLY IDENTIFIED (NOT PUBLICLY IDENTIFIED)
9. **Best introduction route:** Possible – only via a Cambridge academic or alumni co-founder
10. **Relevant previous investment:** Cambridge health and life-science spin-outs (TO VALIDATE on official portfolio)
11. **Strategic value:** 8/15 strategic, 8/10 network — Eligibility requires a University of Cambridge connection; effectively closed to Vytalix unless a Cambridge founder/academic joins.
12. **Likely objection:** The funds only invest in companies with a University of Cambridge founder or IP link, which Vytalix does not have.
13. **Recommended pitch angle:** Treat as a long-shot: only approach if a Cambridge clinical academic joins as co-founder to lead the MaternaLink research track (v3+ AI validation).
14. **Priority score:** Fit 73/100 · Contactability 9/10 · Overall 76 · Tier B
15. **Next action:** Call to qualify fit and process; log outcome; send one-pager.

11. o2h Ventures (VX-011)

1. **Investor:** o2h Ventures — Venture Capital (SEIS/EIS knowledge-intensive 'human health' funds (biotech, therapeutics, health-tech/AI)), Cambridge (Hauxton), United Kingdom — <https://o2hventures.com>
2. **Why they fit Vytalix:** A dedicated SEIS/EIS health investor writing pre-seed cheques in the exact £100k–£500k range Vytalix needs first, with an open pitch-day route.
3. **Why they fit MaternaLink:** MaternaLink fit 4/10 — Yes – 100% human health; majority therapeutics/biotech but includes health-tech and AI-enabled health companies
4. **Investment stage:** Pre-seed (SEIS), Seed (EIS)
5. **Typical ticket:** c.£100k–£500k per company across SEIS/EIS funds (ESTIMATE from fund materials – confirm)
6. **Phone number:** 07341612481 (VERIFIED 2026-09-07 (source in phone_source_url); source: <https://o2hventures.com/contact>)
7. **Email / contact route:** invest@o2h.com — Email invest@o2h.com; phone 07341612481 (number published on the official contact page); apply to pitch at o2h ChaiTime portfolio pitch days
8. **Relevant decision maker:** Sunil Shah (Founder and CEO, o2h group – confirm on team page)
9. **Best introduction route:** Possible – via Cambridge life-science network (IE Cambridge / Cambridge Enterprise) or any o2h portfolio founder
10. **Relevant previous investment:** Cambridge/UK biotech and health-tech seed companies (TO VALIDATE on official portfolio page)
11. **Strategic value:** 7/15 strategic, 6/10 network — Address Hauxton House, The Mill SciTech Park, Mill Lane, Hauxton, Cambridge CB22 5HX (official site / Companies House, 2026-09-07). The published number is in mobile format but is the fund's own advertised contact line,
12. **Likely objection:** o2h's core thesis is science-led therapeutics and IP-heavy biotech; a care-coordination software platform without proprietary science or clinical data may look thin.
13. **Recommended pitch angle:** Frame MaternaLink's v3 multimodal risk-prediction research track (with a named clinical data partner) as the knowledge-intensive story while v1 software builds distribution.
14. **Priority score:** Fit 73/100 · Contactability 9/10 · Overall 76 · Tier B
15. **Next action:** Call to qualify fit and process; log outcome; send one-pager.

12. Founders Factory Africa (VX-012)

1. **Investor:** Founders Factory Africa — Venture Capital (Accelerator fund / venture studio (invests cash for equity)), Johannesburg, South Africa — <https://www.foundersfactory.africa>
2. **Why they fit Vytalix:** Combines cash with hands-on product and venture-building support, which is exactly what a pre-formation team with a prototype dashboard and no engineering capacity needs.
3. **Why they fit MaternaLink:** MaternaLink fit 7/10 — Yes – health-tech has been a named vertical via the Netcare partnership (prior knowledge – TO VALIDATE current programme scope)
4. **Investment stage:** Pre-seed and Seed (Accelerate / Scale programmes)
5. **Typical ticket:** ~US\$150k–US\$250k cash plus in-kind venture support (ESTIMATE, prior knowledge)
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Apply online <https://www.foundersfactory.africa/apply>; email africa-enquiries@foundersfactory.co

8. **Relevant decision maker:** Sam Sturm – confirm on team page (Chief Portfolio Officer (public role per prior knowledge – confirm on team page))
9. **Best introduction route:** Possible – via Netcare/Standard Bank innovation teams or any FFA portfolio founder
10. **Relevant previous investment:** Health-tech names in portfolio (prior knowledge, e.g. Kenya/Nigeria digital-health startups) – TO VALIDATE on <https://www.foundersfactory.africa/portfolio>
11. **Strategic value:** 12/15 strategic, 7/10 network — A +27 number appeared only in Dun & Bradstreet/ZoomInfo-type listings and is NOT recorded. UK sister entity Founders Factory Africa UK Limited exists on Companies House (12118495).
12. **Likely objection:** Programme eligibility is built around startups operating in Africa with committed full-time founders, and Vytalix's founder time commitment and African operations are undocumented.
13. **Recommended pitch angle:** Apply with MaternaLink framed as an Africa-first care-coordination product (Nigeria pilot pathway) and ask whether the health vertical is still open under the Mastercard Foundation programme.
14. **Priority score:** Fit 76/100 · Contactability 7/10 · Overall 75 · Tier B
15. **Next action:** Email/LinkedIn introduction; request 20-minute call; verify phone.

13. Villgro Africa (VX-013)

1. **Investor:** Villgro Africa — Impact / DFI (Health-focused incubator and impact investor (seed cash for equity/grant blends)), Nairobi, Kenya — <https://villgroafrica.org>
2. **Why they fit Vytalix:** The only Africa investor in this list that is health-only and built for pre-seed ventures, so MaternaLink's maternal care-coordination thesis is squarely in mandate.
3. **Why they fit MaternaLink:** MaternaLink fit 9/10 — Yes – exclusively health and life sciences (medtech, digital health, diagnostics, last-mile care)
4. **Investment stage:** Pre-seed / Seed (incubation stage)
5. **Typical ticket:** US\$50k–US\$150k per venture, often grant + equity blend (ESTIMATE, prior knowledge)
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Website contact/funding-calls pages <https://villgroafrica.org/> and https://villgroafrica.org/funding_calls/making-more-health/ (emails are masked in search results – read them off the site)
8. **Relevant decision maker:** Wilfred Njagi – confirm on team page (Co-founder & CEO (Rob Beyer, Co-founder & Executive Chairman, also listed – confirm on team page))
9. **Best introduction route:** Possible – via Strathmore University ecosystem (office is in Strathmore Student Centre) or any Villgro incubatee
10. **Relevant previous investment:** Enzi Health (last-mile care) per official site; other digital-health incubatees – TO VALIDATE
11. **Strategic value:** 12/15 strategic, 7/10 network — A '+254 20 123 4567' number surfaced only from a business directory and is a placeholder pattern – NOT recorded. Address seen: 5th Floor Strathmore University Student Centre, Keri Road, Madaraka, Nairobi (directory source)
12. **Likely objection:** Villgro backs African-founded ventures operating in Kenya/Africa with small cheques, and a UK-domiciled parent chasing NHS trusts will look off-thesis unless the African entity is the applicant.

13. **Recommended pitch angle:** Apply through a funding call with MaternaLink's Africa track (Nigeria/Kenya care coordination) and ask for incubation plus a small seed grant/equity blend rather than a priced round.
14. **Priority score:** Fit 78/100 · Contactability 5/10 · Overall 74 · Tier B
15. **Next action:** Email/LinkedIn introduction; request 20-minute call; verify phone.

14. Global Innovation Fund (GIF) (VX-014)

1. **Investor:** Global Innovation Fund (GIF) — Impact / DFI (Non-profit impact-first investor (grants, equity, debt) backed by UK FCDO and others), London, United Kingdom — <https://www.globalinnovation.fund/>
2. **Why they fit Vytalix:** GIF is London-based, funds maternal and digital-health innovations in Nigeria at pilot stage with US\$50k-scale grants and equity, and demands the kind of evidence design that MaternaLink's re-based v1 needs anyway.
3. **Why they fit MaternaLink:** MaternaLink fit 8/10 — Yes – health is a core theme (maternal and child health, primary care, digital health) in its portfolio
4. **Investment stage:** Pilot (c. US\$50k–\$230k), Test & Transition (up to c. US\$2.3m), Scale (up to US\$15m)
5. **Typical ticket:** US\$50k–\$15m by stage
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE (checked 2026-09-07: contact page shows address only; applications are web-form only))
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Application form only:
<https://www.globalinnovation.fund/apply-for-funding> (no email applications); office 8 Devonshire Square, London EC2M 4PL
8. **Relevant decision maker:** Joseph Ssentongo (Chief Executive Officer (Avinash Mishra is Chief Investment Officer and Head of GIF Growth))
9. **Best introduction route:** Possible – London-based team accessible via UK global-health events
10. **Relevant previous investment:** Health and digital-health innovations in Africa and South Asia
11. **Strategic value:** 11/15 strategic, 8/10 network — GIF states it does not accept applications by email; last open call closed 15 January 2025 and future calls are announced on the site – check before applying. CEO and CIO names verified on official team pages.
12. **Likely objection:** GIF funds innovations with a testable evidence plan and a low-income end-user, whereas Vytalix has only a concept deck, no pilot partner and an unresolved IP position.
13. **Recommended pitch angle:** Enter at Pilot stage with a rigorously scoped Nigerian maternal care-coordination pilot, an evaluation partner, and a clear cost-per-woman assumption to be tested.
14. **Priority score:** Fit 76/100 · Contactability 6/10 · Overall 74 · Tier B
15. **Next action:** Email/LinkedIn introduction; request 20-minute call; verify phone.

15. NorthInvest (VX-015)

1. **Investor:** NorthInvest — Angel Network (Not-for-profit angel network and investor readiness organisation for the North of England), Leeds, United Kingdom — <https://northinvest.co.uk/>
2. **Why they fit Vytalix:** NorthInvest offers free investor-readiness support and monthly pitch access to Northern angels, and Leeds's NHS digital cluster makes it a credible base for a maternal-health platform.
3. **Why they fit MaternaLink:** MaternaLink fit 4/10 — Partial - health-tech is one of several tech verticals seen in its pitch cohorts

4. **Investment stage:** Pre-seed and Seed
5. **Typical ticket:** GBP 50k-500k per round via its angel members (ESTIMATE)
6. **Phone number:** +44 113 320 0777 (VERIFIED 2026-09-07 (source in phone_source_url); source: <https://northinvest.co.uk/contact/>)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Email info@northinvest.co.uk or founder application via <https://northinvest.co.uk/contact/>
8. **Relevant decision maker:** Adam Beaumont – confirm on team page (Founder / Chair (publicly associated founder) – confirm on team page)
9. **Best introduction route:** Possible – via Leeds/Yorkshire health-tech ecosystem (Leeds is an NHS Digital hub)
10. **Relevant previous investment:** Northern digital start-ups featured on official site (TO VALIDATE)
11. **Strategic value:** 6/15 strategic, 5/10 network — Free to founders; strong on investor-readiness which suits a pre-formation company. Leeds hosts a major NHS digital cluster.
12. **Likely objection:** NorthInvest supports companies based in the North of England, so Vytalix would need a Northern registered office or team presence to qualify.
13. **Recommended pitch angle:** If Vytalix locates in Leeds/Manchester, enter the investor-readiness programme first, then pitch MaternaLink (in development) as a UK maternity care-coordination tool with a services revenue line.
14. **Priority score:** Fit 69/100 · Contactability 10/10 · Overall 74 · Tier B
15. **Next action:** Call to qualify fit and process; log outcome; send one-pager.

16. LocalGlobe (Phoenix Court) (VX-016)

1. **Investor:** LocalGlobe (Phoenix Court) — Venture Capital (Pre-seed / seed VC (Phoenix Court group; Latitude for later stage)), London, United Kingdom — <https://www.phoenixcourt.vc/localglobe>
2. **Why they fit Vytalix:** LocalGlobe seeds UK founders at pre-seed, has a health-tech partner and NHS-facing portfolio (Echo, Apian), and its Phoenix Court community lens fits a mission-led maternal-health company.
3. **Why they fit MaternaLink:** MaternaLink fit 5/10 — Yes - health tech is a named focus with a dedicated partner (Julia Hawkins) and a published health-tech white paper
4. **Investment stage:** Pre-seed, Seed (Series A via Latitude)
5. **Typical ticket:** c.£500k-£3m initial (ESTIMATE from public profiles)
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Website submission via <https://www.phoenixcourt.vc/localglobe> (no formal form; warm intro preferred)
8. **Relevant decision maker:** Julia Hawkins (Partner, Health Tech (per UKTN article on her hire))
9. **Best introduction route:** Possible - via Phoenix Court portfolio founders or its Somers Town community programmes
10. **Relevant previous investment:** Apian (healthcare drone logistics API), Echo (NHS repeat prescriptions, acquired), Zebra Medical Vision (AI imaging), MyHeritage
11. **Strategic value:** 10/15 strategic, 9/10 network — Address 1 Brill Place, London NW1 1EL (Phoenix Court). No public phone or general email surfaced in results. Phoenix Court also runs place-based/impact initiatives in Camden that may value a Black maternal-health mission

12. **Likely objection:** LocalGlobe prefers strong technical founding teams with early product signal, and will be wary of a concept-stage platform whose IP sits with a separate 'Maternal Link' CEO.
13. **Recommended pitch angle:** Use the health-tech white paper's language: show MaternaLink as NHS-workflow-native care coordination with a named NHS trust pilot pathway, and resolve the IP question before first contact.
14. **Priority score:** Fit 77/100 · Contactability 5/10 · Overall 73 · Tier B
15. **Next action:** Email/LinkedIn introduction; request 20-minute call; verify phone.

17. Calm/Storm Ventures (VX-017)

1. **Investor:** Calm/Storm Ventures — Venture Capital (Boutique health-tech seed VC and founder network), Vienna, Austria — <https://www.calmstorm.vc/>
2. **Why they fit Vytalix:** Calm/Storm writes small pre-seed health-tech cheques across Europe and the US and has backed women's-health founders.
3. **Why they fit MaternaLink:** MaternaLink fit 6/10 — Yes – exclusively health-tech (mental health, women's health, chronic care, care delivery)
4. **Investment stage:** Pre-seed and seed
5. **Typical ticket:** ESTIMATE €100k–€500k
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Email hello@calmstorm.vc; LinkedIn to Lucanus Polagnoli
8. **Relevant decision maker:** Lucanus Polagnoli (Founding Partner (Managing Directors per imprint: Lucanus Polagnoli, Stephanie Urbanski) – confirm on team page)
9. **Best introduction route:** Possible – via Calm/Storm founder network members
10. **Relevant previous investment:** Probably Genetic and other early health-tech companies (see <https://www.calmstorm.vc/portfolio>); women's-health founders in network (e.g., Madison Campbell profile page)
11. **Strategic value:** 8/15 strategic, 6/10 network — Official imprint (2026-09-07): Goldeggasse 26/10, 1040 Vienna; FN 524428v; no phone listed. Small cheques and pre-seed appetite fit Vytalix's first round.
12. **Likely objection:** The fund backs founders with prior operating or clinical track records, and Vytalix's team and IP structure are undocumented.
13. **Recommended pitch angle:** Email hello@ with a crisp purpose-driven narrative on maternal-health disparities and a request to join the founder network alongside a small cheque.
14. **Priority score:** Fit 75/100 · Contactability 6/10 · Overall 73 · Tier B
15. **Next action:** Email/LinkedIn introduction; request 20-minute call; verify phone.

18. Future Africa (VX-018)

1. **Investor:** Future Africa — Venture Capital (Africa-focused pre-seed/seed VC (founder-collective model)), Lagos, Nigeria — <https://www.future.africa>
2. **Why they fit Vytalix:** Writes cheques as small as US\$25k at pre-seed for mission-driven African founders, which matches Vytalix's first-round size and its Nigeria expansion story.

3. **Why they fit MaternaLink:** MaternaLink fit 6/10 — Generalist; health-tech portfolio not confirmed in search results - TO VALIDATE
4. **Investment stage:** Pre-seed, Seed, Seed+
5. **Typical ticket:** US\$25k-US\$500k; historical average ~US\$54k initial and ~US\$110k follow-on (Fund II review)
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** funding@future.africa — Email funding@future.africa with a proposal (recommendation from network preferred) or apply via form on future.africa
8. **Relevant decision maker:** Iyinoluwa Aboyeji (Founder & General Partner)
9. **Best introduction route:** Possible - fund states proposals should come with a recommendation from someone in their network
10. **Relevant previous investment:** Portfolio spans fintech, agtech, logistics, edtech; no maternal-health company confirmed in search
11. **Strategic value:** 9/15 strategic, 7/10 network — Fund requires an MVP - the Vercel MaternaLink prototype may qualify only if ownership is clarified. Official notice on funding processes warns of impersonation; use only official channels. Personal emails for the GP appe
12. **Likely objection:** They want an MVP with early traction and a founder based in-market, and MaternaLink's IP ownership between Vytalix and David Agunede is undocumented.
13. **Recommended pitch angle:** Pitch MaternaLink (in development) as a mission-driven maternal-care coordination product for Nigerian state health systems, with the Ekiti conversation as evidence of demand discovery.
14. **Priority score:** Fit 74/100 · Contactability 7/10 · Overall 73 · Tier B
15. **Next action:** Email/LinkedIn introduction; request 20-minute call; verify phone.

19. RH Capital (Rhia Ventures) (VX-019)

1. **Investor:** RH Capital (Rhia Ventures) — Venture Capital (Impact women's-health VC fund managed by a non-profit), San Francisco, United States — <https://rhcapital.vc/>
2. **Why they fit Vytalix:** RH Capital's explicit maternal-health and health-equity mandate mirrors MaternaLink's focus on reducing disparities for Black mothers.
3. **Why they fit MaternaLink:** MaternaLink fit 10/10 — Yes – exclusively women's/reproductive health: contraception, maternal health, menopause, sexual health, health equity
4. **Investment stage:** Seed to Series A (some pre-seed)
5. **Typical ticket:** ESTIMATE \$250k–\$1.5m (confirm on FAQs page)
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Web contact: <https://rhcapital.vc/contact/>; email info@rhiaventures.org
8. **Relevant decision maker:** Elizabeth Bailey (Managing Director, RH Capital – confirm on team page)
9. **Best introduction route:** Possible – via maternal-health equity networks and Rhia's ecosystem-building programme
10. **Relevant previous investment:** Maternal-health and reproductive-health startups (e.g., Cayaba Care, Pomelo Care, Twentyeight Health – TO VALIDATE current list at <https://rhcapital.vc/>)

11. **Strategic value:** 9/15 strategic, 7/10 network — Address on official contact page: 2261 Market Street, Ste 85144, San Francisco, CA 94114. No phone on official pages (checked 2026-09-07). Strong Black-maternal-health equity thesis – the closest US thesis match for Mate
12. **Likely objection:** The fund invests almost exclusively in US companies serving US patients, so a UK/Nigeria-first startup is outside its geography.
13. **Recommended pitch angle:** Position MaternaLink as a UK/African maternal-equity platform whose learnings translate to the US, and ask for advice and co-investor introductions before capital.
14. **Priority score:** Fit 74/100 · Contactability 7/10 · Overall 73 · Tier B
15. **Next action:** Email/LinkedIn introduction; request 20-minute call; verify phone.

20. Seedcamp (VX-020)

1. **Investor:** Seedcamp — Venture Capital (Pre-seed / seed fund (Europe's seed fund)), London, United Kingdom — <https://seedcamp.com/>
2. **Why they fit Vytalix:** Seedcamp invests at true pre-seed across Europe, lists healthtech as a vertical and accepts cold applications, so it is a plausible first institutional cheque once Vytalix is incorporated.
3. **Why they fit MaternaLink:** MaternaLink fit 4/10 — Partial - healthtech is one of several verticals (e.g. Sano Genetics, Cera - prior knowledge)
4. **Investment stage:** Pre-seed, Seed
5. **Typical ticket:** c.£300k-£1m+ initial (ESTIMATE from public profiles)
6. **Phone number:** +442039362828 (VERIFIED 2026-09-07 (source in phone_source_url); source: <https://seedcamp.com/complaints/>)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Web application via <https://seedcamp.com/contact/> (email submission guidance on site; no public pitch@ address found)
8. **Relevant decision maker:** Reshma Sohoni (Co-founder and Managing Partner (named on seedcamp.com complaints page))
9. **Best introduction route:** Possible - via Seedcamp portfolio founders or the Seedcamp Nation community
10. **Relevant previous investment:** Healthtech companies in portfolio (search results confirm healthtech vertical; specific names TO VALIDATE, e.g. Sano Genetics, Cera from prior knowledge)
11. **Strategic value:** 8/15 strategic, 9/10 network — Phone is the number published on the official complaints page (Soho Works, 72-74 Dean Street, W1D 3SG) - a general line, not an investment-team line. Registered office 12 Little Portland Street, W1W 8BJ (Companies House)
12. **Likely objection:** Seedcamp backs global-market software founders with technical teams, and will question a UK-Nigeria maternal-health platform whose code ownership and founding team are not yet documented.
13. **Recommended pitch angle:** Present a tight founding team (technical lead named, MaternaLink IP assigned) and a software-first model - care coordination SaaS sold to NHS trusts and integrated care boards - with Africa as expansion, not the core thesis.
14. **Priority score:** Fit 74/100 · Contactability 7/10 · Overall 73 · Tier B
15. **Next action:** Call to qualify fit and process; log outcome; send one-pager.

21. AAIC Investment (Asia Africa Investment & Consulting) – Africa Healthcare Fund (VX-021)

1. **Investor:** AAIC Investment (Asia Africa Investment & Consulting) – Africa Healthcare Fund — Venture Capital (Africa healthcare-focused VC (AHF1 / AHF2)), Singapore (offices in Nairobi, Cairo; Tokyo group HQ), Singapore — <https://aaicinvestment.com>
2. **Why they fit Vytalix:** A dedicated Africa healthcare fund with a Nairobi office and Egypt presence, so it understands maternal-health economics in African public systems better than generalist VCs.
3. **Why they fit MaternaLink:** MaternaLink fit 8/10 — Yes – healthcare is the core mandate (hospitals, pharma distribution, digital health, medtech)
4. **Investment stage:** Seed to Series B (prior knowledge)
5. **Typical ticket:** US\$500k–US\$5m (ESTIMATE, prior knowledge)
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** pr-investment@aa-ic.com — Email pr-investment@aa-ic.com; Singapore office 180B Bencoolen Street #05-02, Singapore 189648 (official company information page)
8. **Relevant decision maker:** Susumu Tsubaki – confirm on leadership page (Founder & CEO, AAIC Holdings (Hiroki Ishida listed as Representative of Kenya office / Director of Egypt office – confirm))
9. **Best introduction route:** Possible – via Nairobi office or Japanese health-tech/impact networks (JICA-linked ecosystem)
10. **Relevant previous investment:** Revital Healthcare (Kenya medical devices), Fourth Valley (official news releases); other digital-health holdings – TO VALIDATE
11. **Strategic value:** 12/15 strategic, 8/10 network — No phone published in search results. Ticket sizes are estimates. AHF2 has Japanese financial-institution and listed-company LPs – useful for later corporate partnerships.
12. **Likely objection:** AAIC typically writes larger cheques into revenue-generating healthcare companies with African operations, and Vytalix has no revenue, no African entity and an undocumented MaternaLink ownership position.
13. **Recommended pitch angle:** Send a short note to pr-investment@aa-ic.com introducing MaternaLink's Nigeria care-coordination model and ask to be tracked for AHF2 once an African operating entity and first pilot exist.
14. **Priority score:** Fit 73/100 · Contactability 7/10 · Overall 73 · Tier B
15. **Next action:** Email/LinkedIn introduction; request 20-minute call; verify phone.

22. Ingressive Capital (VX-022)

1. **Investor:** Ingressive Capital — Venture Capital (Africa-focused pre-seed/seed VC), Lagos, Nigeria — <https://ingressivecapital.com>
2. **Why they fit Vytalix:** Lagos pre-seed fund with an open application form, US\$100k-500k cheques and health tech explicitly in scope.
3. **Why they fit MaternaLink:** MaternaLink fit 6/10 — Yes - health tech / digital health named as a focus sector
4. **Investment stage:** Pre-seed, Seed
5. **Typical ticket:** US\$100k-US\$500k targeting ~10% ownership
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Web application form <https://ingressivecapital.com/application/>; contact page <https://ingressivecapital.com/contact/>; email

communications@ingressive.vc

8. **Relevant decision maker:** Maya Horgan Famodu (Founder & Partner)
9. **Best introduction route:** Possible - Ingressive for Good (I4G) community and portfolio founders
10. **Relevant previous investment:** Digital health solutions cited among portfolio sectors; specific companies not confirmed in search
11. **Strategic value:** 8/15 strategic, 7/10 network — A phone number shown on a scraped directory looked like a placeholder and is excluded. FAQ page states investment criteria.
12. **Likely objection:** They target ~10% ownership in Africa-domiciled companies with a product in market, and Vytalix has no incorporated entity, revenue or validated product yet.
13. **Recommended pitch angle:** Frame MaternaLink as a Nigeria-first maternal care-coordination SaaS with a state-government sales motion, backed by UK clinical-governance standards.
14. **Priority score:** Fit 73/100 · Contactability 7/10 · Overall 73 · Tier B
15. **Next action:** Email/LinkedIn introduction; request 20-minute call; verify phone.

23. MMC Ventures (VX-023)

1. **Investor:** MMC Ventures — Venture Capital (Seed / Series A research-led VC (EIS and institutional funds)), London, United Kingdom — <https://mmc.vc/>
2. **Why they fit Vytalix:** MMC has a named data-driven-health theme, a public invest@ inbox and an EIS fund that can write seed cheques into UK companies, making it reachable without a warm intro.
3. **Why they fit MaternaLink:** MaternaLink fit 5/10 — Yes - 'data-driven health' is a named investment theme
4. **Investment stage:** Seed, Series A (research-led)
5. **Typical ticket:** c.£1m-£5m initial (ESTIMATE from public profiles); EIS fund also invests at seed
6. **Phone number:** 020 7938 2220 (VERIFIED 2026-09-07 (source in phone_source_url); source: <https://mmc.vc/contact-us/>)
7. **Email / contact route:** invest@mmc.vc — Email invest@mmc.vc or contact form <https://mmc.vc/contact-us/>
8. **Relevant decision maker:** Simon Menashy (Partner (name from prior knowledge - confirm on <https://mmc.vc/team/>))
9. **Best introduction route:** Possible - via Current Health or XUND founders (digital-health portfolio)
10. **Relevant previous investment:** Current Health (remote patient monitoring, acquired by Best Buy), XUND (AI symptom-check / medical API, seed extension), Synthesia, Signal AI
11. **Strategic value:** 10/15 strategic, 8/10 network — Office 24 High Holborn, London WC1V 6AZ and phone shown in official-domain (mmc.vc) search result. Research-led house; 'data-driven health' theme favours evidence and data assets Vytalix does not yet hold.
12. **Likely objection:** MMC's research-led seed/Series A model expects product, data and early traction, which a pre-formation group without a validated MaternaLink prototype cannot yet show.
13. **Recommended pitch angle:** Approach after incorporation and SEIS/EIS advance assurance with a data-strategy narrative: how MaternaLink's care-coordination v1 builds the longitudinal maternal dataset that later supports the (v3+) AI research track.
14. **Priority score:** Fit 72/100 · Contactability 8/10 · Overall 73 · Tier B
15. **Next action:** Call to qualify fit and process; log outcome; send one-pager.

24. Angel Academe (VX-024)

1. **Investor:** Angel Academe — Angel Network (Women-led angel network and EIS fund investing in tech startups with at least one woman founder), London, United Kingdom — <https://www.angelacademe.com/>
2. **Why they fit Vytalix:** Angel Academe is a fee-free UK pre-seed network that already backs women's-health companies like Bea Fertility, so a maternal-health platform fits its investors' interests directly.
3. **Why they fit MaternaLink:** MaternaLink fit 8/10 — Partial - health-tech is a regular theme (portfolio includes women's-health companies)
4. **Investment stage:** Pre-seed and Seed
5. **Typical ticket:** GBP 100k-500k per round from the network (ESTIMATE); EIS fund co-invests
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Founder application form at <https://www.angelacademe.com/founders> (no fees; contact page for other queries)
8. **Relevant decision maker:** NOT PUBLICLY IDENTIFIED (NOT PUBLICLY IDENTIFIED)
9. **Best introduction route:** Possible - via portfolio founders such as Bea Fertility
10. **Relevant previous investment:** Bea Fertility (women's health), Provenance, Uncommon, Pherosyn (per official site news page)
11. **Strategic value:** 7/15 strategic, 6/10 network — Official site uses online forms; no phone or email surfaced. Eligibility requires at least one woman founder - a co-founder decision for Vytalix.
12. **Likely objection:** Angel Academe requires at least one woman founder on the cap table, and Vytalix's founding team composition is currently undocumented.
13. **Recommended pitch angle:** If a woman co-founder or clinical co-founder joins, apply via the founders form positioning MaternaLink (in development) as a UK maternal care-coordination platform led by an inclusive team.
14. **Priority score:** Fit 76/100 · Contactability 5/10 · Overall 72 · Tier B
15. **Next action:** Email/LinkedIn introduction; request 20-minute call; verify phone.

25. UCL Technology Fund (VX-025)

1. **Investor:** UCL Technology Fund — University / Institutional Fund (University College London technology fund managed by AlbionVC with UCL Business (UCLB)), London, United Kingdom — <https://ucltf.co.uk/>
2. **Why they fit Vytalix:** UCLTF sits next to UCL's Institute for Women's Health and UCLH, so a MaternaLink research collaboration with UCL could unlock both clinical validation and a natural seed investor.
3. **Why they fit MaternaLink:** MaternaLink fit 6/10 — Yes - a large share of the portfolio is therapeutics, medtech and digital health (UCL / UCLH ecosystem)
4. **Investment stage:** Pre-seed, Seed and Series A
5. **Typical ticket:** GBP 250k-2m initial (ESTIMATE)
6. **Phone number:** PHONE NOT PUBLICLY AVAILABLE (PHONE NOT PUBLICLY AVAILABLE)
7. **Email / contact route:** NOT PUBLICLY AVAILABLE — Email info@ucltf.co.uk; UCL researchers route via their UCLB Business Manager
8. **Relevant decision maker:** NOT PUBLICLY IDENTIFIED (NOT PUBLICLY IDENTIFIED)

9. **Best introduction route:** Possible – via a UCL clinical academic (e.g. UCL Institute for Women's Health) joining as adviser
10. **Relevant previous investment:** UCL health spin-outs (TO VALIDATE on official portfolio)
11. **Strategic value:** 10/15 strategic, 8/10 network — Invests only in UCL-derived IP/companies; AlbionVC (in file 01) is the manager. No phone surfaced.
12. **Likely objection:** UCLTF only funds companies built on UCL research or founded by UCL staff/students, which Vytalix is not.
13. **Recommended pitch angle:** Pursue a research partnership with a UCL maternal-health group first; only then present MaternaLink's v3 AI risk-stratification track as UCL-linked IP eligible for UCLTF.
14. **Priority score:** Fit 76/100 · Contactability 5/10 · Overall 72 · Tier B
15. **Next action:** Email/LinkedIn introduction; request 20-minute call; verify phone.
