

VYTALIX

Advisory & Consulting

Services for healthcare organisations, founders and public bodies

YOUR SITUATION, AS WE HEARD IT

Your situation, as we heard it

- Copy
- What prompted this conversation: [their words from discovery Q1].
- Where you are today: [current state; what has been tried; what happened].
- What success looks like in six months: [their success criteria, Q3].
- What happens if nothing changes by [date]: [their answer to Q6].
- Constraints we must respect from Day 1: [regulatory, clinical-safety, data-protection, procurement constraints, Q16].

Visual: Bone; eyebrow "WHAT WE HEARD" in Teal; four short paragraphs; the prospect's own phrases in quotation marks in Fraunces; nothing else on the slide. ---

WHY IT MATTERS NOW

Why it matters now

- Copy
- The cost of the problem as you described it: [time / money / risk / missed opportunity, Q7].
- The external clock: [board meeting, funding round, tender, inspection, programme deadline, Q11].
- Sector context (cited): [one or two relevant, sourced facts — e.g. DTAC is assessed by each buying organisation, not "certified"; NHS product sales cycles of 9–18 months (ESTIMATE); MBRRACE-UK findings, current report cited; Nigeria NDPA 2023 obligations].
- Doing nothing is a decision with a price: [the consequence they named].

Visual: Bone; two columns: "Your clock" and "The sector's clock"; a single stat only if sourced, set in Fraunces with the source line at 16px. ---

How we work

- Copy
- Fixed scope, fixed price, written change control. You know the deliverable, the acceptance criterion and the date before we start.
- Founder-led. The person you met does the work; associates join only on signed work and only with your agreement.
- Evidence before claims. We cite sources; we tell you if the idea should not be built.
- Safety and data by design. Advisory and consulting engagements process no patient data.
- Every engagement leaves you a reusable asset — a template, a checklist, a model — not just a report.

Visual: five lines with monoline icons; whitespace; no imagery. ---

OUR PROPOSED APPROACH

Our proposed approach

- Copy
- Phase 1 — Understand ([n] days): [activities, e.g. 10–15 interviews, document review, current-state map]. Output: [deliverable].
- Phase 2 — Decide ([n] days): [option appraisal / gap analysis / business case draft]. Output: [deliverable].
- Phase 3 — Plan ([n] days): [90-day roadmap / readiness sequence / board paper]. Output: [deliverable].
- What we will not do: [explicit exclusions — e.g. build software, sign off a clinical safety case in place of your CSO, give legal advice, process patient data].
- Your involvement: [hours per week from the day-to-day counterpart, Q17; access to people and documents].

Visual: three-column phase diagram with waypoints; Ember node on the final deliverable; exclusions in a Mist-tinted box below. ---

PACKAGES AND OPTIONS

Packages and options

- Copy
- Option A — Good: [package code and name, e.g. C7 Grant & Investor Readiness Sprint], [duration], [deliverables in one line], £[fee] (ESTIMATE, ex-VAT).
- Option B — Better (recommended): [e.g. C6 DTAC & Evidence Readiness Sprint + 1 advisory day per month for 3 months], [duration], [deliverables], £[fee].
- Option C — Best: [e.g. C4 UK Market-Entry Playbook + C6 + A2 retainer for 3 months], [duration], [deliverables], £[fee]; bundle pricing per ``/assets/PRICING_STRUCTURE.md`` \$6.
- All options: fixed fee; 50% on signing for engagements under £20k, 40/30/30 milestones above; expenses at cost with prior approval; 14-day payment terms.
- Catalogue prices for reference: C1 £14,000
- C2 £18,000
- C3 £24,000
- C4 £22,000
- C5 £20,000

Visual: three cards (choice between siblings, brand rule 6); recommended card with an Ember eyebrow "Recommended"; prices in Manrope 700; "ESTIMATE, ex-VAT" in Slate on every card. ---

TIMELINE

Timeline

- Copy
- Week 0: kick-off (90 minutes), access and dependencies confirmed, interview list agreed.
- Weeks 1–[n]: Phase 1 — [milestone]. Check-in every [Tuesday].
- Weeks [n]–[n]: Phase 2 — [milestone]; interim readout.
- Week [n]: Phase 3 — final deliverables; acceptance review; handover of reusable assets.
- Week [n+2]: 30-minute follow-up call (included) to review adoption.
- Dependencies on you: [named counterpart availability; access to documents; interviewee introductions by week 1].

Visual: Gantt-style table; Teal bars; Ember marker on the final acceptance date; dependency row in Slate. ---

Who does the work and why trust us

- Copy
- [Founder name], Founder — [two-line background: KNOWN facts only, confirmed against the CV].
- Methods are documented and open: discovery guide, decision-scoring framework, DTAC readiness sequence, hazard-log starter (published in our Insights; see `/docs/14\_MARKETING\_AND\_CONTENT\_ENGINE.md` §6).
- Associates (if any): [name, role — with consent only; otherwise "an NHS-experienced associate will be proposed for your approval before Phase 1"].
- Advisers: [only if appointed with written consent; otherwise omit the line].
- Insurance: professional indemnity £[1m] and public liability in place [from date — do not present until purchased].
- What we don't have yet: named client references. We offer a first-engagement price review at the end of Phase 1 instead: if the interim readout does not meet the agreed acceptance criterion, you may stop at that point and pay only for Phase 1.

Visual: one portrait panel (illustration placeholder until photography with consent); text block; no logos, no testimonials. ---

OPTIONAL: WHERE MATERNALINK (IN DEVELOPMENT) FITS

Optional: where MaternaLink (in development) fits

- *Include only when the prospect's problem is maternity-related; otherwise delete.*
- Copy
- Separately from this engagement, Vytalix is developing MaternaLink — a non-diagnostic care-coordination and communication platform for maternity services (NHS and low-connectivity settings). It does not diagnose, predict or score.
- It is not for sale today. It is in development; IP, prototype audit, clinical safety and DPIA gates are being closed first.
- If useful, we would welcome your team's input as a design partner in a service evaluation, with no purchase obligation and a separate, explicit agreement (`` /assets/PARTNERSHIP_DECK.md ``).
- Conflict rule: any consulting advice we give you on maternity digital tools declares this interest in writing.

Visual: Night background slide; persistent tag "Non-diagnostic — in development" in Ember Light; three lines only. ---

NEXT STEP

Next step

- Copy
- Decision needed by: [date] (proposal validity 21 days from issue).
- Proposed kick-off: [date].
- What we need from you: [named counterpart; MSA and SOW signature; access list; 50% invoice paid or purchase order raised].
- What you get from us within two working days: the written proposal (`/assets/PROPOSAL\_TEMPLATE.md`), the MSA, and a kick-off agenda.
- Contact: [founder email]
- [LinkedIn]
- [website]

Visual: Deep background; four lines; Ember CTA style on the decision line; footer "Vytalix — Technology for Life". --- ## Using this deck | Rule | Detail | |---|---| | Never sent cold | Built from discovery notes; slide 2 must contain the prospect's own words | | One
